

# Message from the Director

## Welcome to Agrupamento de Escolas Passos Manuel!

We are an educational network of six public schools from the town councils of Arroios, Misericórdia, Santo António and Santa Maria Maior. These schools offer Preschool, Primary and Secondary Education.

**João Paulo Leonardo**

Director of Agrupamento de Escolas Passos Manuel

We aim to provide each student with opportunities for access to knowledge and learning experiences, enabling them to develop the necessary skills for an active and responsible participation in the community of which they are an integral part.

Our educational project promotes principles of curricular management and pedagogical practices which foster inclusion and integrate intercultural diversity as sources of learning towards individual and collective development.

Our project also encourages the active participation of families and other partners in school activities as a resource for the whole school community.
